

Tabriz Municipality District 2 Launches 20 Development Projects

Dr. Mehdi Soleimanpour mayor of Tabriz Municipality district 2

tions of the Luminaries of Azarbaijan Complex including creation of waterscapes and pathways costing 1.5 billion rials and building the entrance metal door costing 250 million rials and making the busts and statues of the luminaries of Azarbaijan have been started concurrent with May 23 marking the liberation day of Khorramshahr.

Two pre-fabricated sanitary restrooms opposite Tabriz University and the entrance of Zaferanieh Residential Complex have been launched costing 450 million rials and two other restrooms are being built in Dr. Hesabi Boulevard Park and Golha Park which will be inaugurated by the mid June.

Emphasizing on the need for building arteries and highways in the city of Tabriz, he said that the municipality pays special attention to this issue.

Construction of Aflaknama to cable bridge road, revamping the Basmanj road, completion of Vilashahr to Kouy-e Dadgostari road, and the entrance of Baghchian town to Shahid Kasaei highway as well as refurbishing the Shariati Valiasr street are to be commenced.

He also informed of building Tabriz University Bridge and said that the bridge is to be built for connecting the lands neighboring the university to the beltway. It has passersby and overpass as well as ramps and have been built expending 7.15 billion rials.

Groundbreaking for creation of Shahid Rajaei canal and building Tabriz Justice Department access road are the other underway projects.

Construction operations of the sacred defense museum will be put up to tender by the foundation for preservation and dissemination of the sacred defense values and works and the project will be vested to an eligible contractor by the Municipality district 2.

Also, a multi-purpose gym costing 3.25 billion rials, water drinking places named after Shahriar costing 240 million rials, hoisting the resistance flag to the height of 57 meters marking the year of victory of Islamic Revolution (1357 Iranian calendar) costing 300 million rials are underway.

Currently, Tabriz Municipality district 2 has 12 projects at hand including revamping Baqer Khan bridge at Abresan junction, building pathway extending from Daneshgah square to Imam Khomeini street, asphalt coating the streets, building mechanized bridges for the disabled, un-level crossings of Shahid Pishqadam and Sajadieh, reopening of Dr. Hesabi boulevard to Shahid Kasaei highway, zoological garden, completion of the trade complex opposite university, reopening the Baqshomal street, and some other projects.

Four development projects are to be inaugurated and 16 other are to be kicked off, Dr. Mehdi Soleimanpour mayor of Tabriz Municipality district 2 stated.

Operations for creation of four parks in the district 2 of Tabriz Municipality are underway, he said adding the groundbreaking operations for creation of women's park and establishment of the Luminaries of Azarbaijan Complex have been started. Also, the Golha and Shahid Pashaei parks will be inaugurated.

Some two billion rials has been expended for creation of Golha Park in Azizabad district in Shahid Montazeri Street (Maralan).

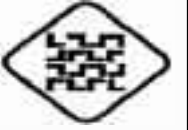

The Women's Park measuring 3,000 square meters area costing some 70 billion rials in Zaferanieh residential complex, Khorramshahr Park measuring 15,000 square meters adjacent to the sacred defense museum, completion of construction opera-

The 5TH International ISC Conference on Information Security and Cryptology 2008 (ISCISC2008)

6 - 7 October 2008

Malek Ashtar University of Technology, Tehran, IRAN

Scope and Topics

ISCISC2008 accepts original papers in a variety of information security related topics, including but not limited to:

- Formal Methods in Information Security
- Privacy and Anonymity
- Availability
- Security in New Computational Environments (Grid, Pervasive, ...)
- Vulnerabilities (Modeling, Analysis)
- Secure Software Engineering / Software Security
- Cryptographic Hardware and Embedded Systems
- Information Hiding
- Fundamentals of Cryptography
- Cryptographic Algorithms
- Security Protocols
- Identification and Authentication
- Access Control and Trust Management
- Operating System Security
- Database Security
- Auditing and Intrusion Detection
- Network Security
- E-Business Security

Conference programs

- ✓ Article Presentations
- ✓ Scientific Lectures
- ✓ Scientific Panels
- ✓ Workshops
- ✓ Problem Session
- ✓ Exhibition

Important Dates

- Submission of full papers 9 June 2008 (Extended)
- Submission of special session and workshop proposals 14 July 2008 (Extended)

For more information on programs and registration, please go to conference web site.

Conference Secretariat

Address: ICT Faculty, Malek Ashtar University of Technology, Shabanloo Ave., Lavizan, Tehran, IRAN.

Tel: +98-21-22931180

Fax: +98-21-22934148

Email: ISCISC2008@MUT.AC.IR

Iran, Egypt urge promotion of eco ties

Tehran Times Economic Desk

TEHRAN — Iran and Egypt call for expansion of bilateral ties.

The Head of Iran's Chamber of Commerce, Industries, and Mines Mohammad Nahavandian in a meet with the head of Egypt's Interest Section in Iran Abdol-Meguid El-Zayat here on Saturday announced that to this end, the sides have to have joint investment and common trade companies as well as international common trade interests.

He also expressed Iran's readiness to dispatch trade delegation to Egypt in a bid to pave the way for more investment in two countries.

Referring to both sides great potentials, the Iranian official added that Iran has the ability to invest in the auto industry of Egypt.

"The Iranian and Egyptian tradesmen could not apply the potentials properly unless they have direct trade relation," said Nahavandian, noting the sides have to facilitate the visa issue for the businessmen.

The sides have formerly banking and shipping common institutes which have to be updated, he added.

The head of ICCIM voiced Iran's economically preparedness to boost ties with Egypt, saying to this end the Iran-Egypt Commercial Council has to become more active.

El-Zayat for his part, welcomed the enforcement of mutual relations.

Toyota denies decision on Prius in U.S.

TOKYO (AP) — Toyota said that nothing had been decided yet on using its California joint venture plant with General Motors to produce its Prius hybrid — a move that would mark the first North American plant for the hit "green" car.

The Tokyo Shimbun reported that Toyota Motor Corp. was in talks with General Motors Corp. about producing the Prius, now made in only Japan and China, at a joint venture plant in Fremont, Calif. The newspaper, which did not cite sources as is common in Japanese media reports, said that adding another production plant will help boost Toyota hybrid sales. Toyota is hoping to sell 1 million hybrids a year sometime after 2010. Toyota took a decade before recently reaching cumulative sales of 1 million for the Prius, the world's first mass produced gas-electric hybrid.

Hybrids, which save on gas by switching between a gasoline engine and electric motor, are growing increasingly popular because of soaring gas prices and growing fears about global warming.

Other automakers, including GM and Honda Motor Co., are trying to catch up with Toyota with their versions of hybrids. "We are always considering the best places for production, but nothing has been decided about producing the Prius at NUMMI," Toyota said in a statement, referring to the plant called New United Motor Manufacturing Inc.

The majority of global Prius sales are in the U.S., where demands for small cars are surging. California has among the toughest emissions regulations in the world, helping making the Prius popular there.
